REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly suggest a multi-piece solid golf ball comprising a core consisting of a center, an intermediate layer formed on the center and an outer layer formed on the intermediate layer, and a cover covering the core, wherein the center has a diameter of 10 to 19 mm and central point hardness in JIS-A hardness of 30 to 85, the intermediate layer has a surface hardness in Shore hardness of 30 to 55, the outer layer has a hardness in Shore D hardness of 55 to 70, and the cover has a Shore D hardness of 35 to 55 and a thickness of 0.3 to 1.5 mm. In particular, Hayashi fails to disclose a center from 10 to 19 mm and the central point hardness from 30 to 80 JIS-A. Hayashi teaches away from the diameter by disclosing from 20 to 37 and more preferably from 22 to 35 mm. The Shore D hardness from 15 to 55 is for the surface hardness and not the center hardness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
